H & E

Maison 100 H

Safety and style with this value for money hydraulic home lift solution, with minimum space requirements

Type of lift > Hydraulic

Technical specifications

Model	Maison100 H
Rated load (Kg)	Up to 400
Max travel (m)	12
Max number of stops	5
Max speed (m/s)	0,15* - 0,30**
Min Pit depth (mm)	100* - 130**
Min Headroom (mm)	2400
Maximum car entrances	2
Power supply	Single phase or three phase
Complies with	* Machinery Directive 2006/42/EC ** AS1735.18

Recommended uses

Private residences
Low traffic buildings

Description & features

Ideal for comfort and ease, Maison100 H, is designed and manufactured according to Machinery Directive 2006/42/EC and meets any need for transportation and mobility. A value for money solution that provides access inside or outside a private residence or low storey public buildings and guarantees safety and style.

Value for money

Its very low energy consumption (lower than a kitchen oven) in conjunction with its exceptional performance, makes Maison100 H the ideal value for money choice. With 100mm minimum pit depth and 2400mm headroom required, it is perfectly suitable for buildings with or without concrete shaft and with shaft pit and headroom limitations.

Optimum use of space

The pit and headroom requirements are amongst the most competitive in the market for enclosed cabin platform lifts. Maison100 H offers optimum space efficiency by providing the opportunity of installing larger car in a standard shaft.

Plug n' play solution

Prewired shaft wiring and single-phase power supply.

Premium ride quality

Maison100 H offers a premium ride quality, with the new controller Genius20, with shaft copy system for precise floor levelling and a 2-speed hydraulic valve.

Maison 100 E

The innovative electric cabin platform lift, that makes best use of available space and is extremely energy efficient

Type of lift > **Electric**

Technical specifications

Model	Maison100 E
Rated load (Kg)	Up to 385
Max travel (m)	12
Max number of stops	5
Max speed (m/s)	0,15
Min Pit depth (mm)	100
Min Headroom (mm)	2500
Maximum car entrances	2
Power supply	Single phase
Complies with	Machinery Directive 2006/42/EC

Recommended uses

Private residences
Low traffic buildings

Description & features

Acknowledging the importance of space availability, KLEEMANN introduces Maison100 E, with 100mm minimum pit depth and 2500mm headroom required. Available with semi-automatic or automatic doors, Maison100 E can be also provided with an aluminum shaft construction where a masonry shaft is not available.

Modular Design

Cabin's modular design provides the possibility of different claddings for the surrounding walls while its minimalist design creates an outstanding ambience

Fast and easy installation

Smart and compact design for installation in much shorter time compared to other electric platform lifts.

Plug n' play solution

Prewired shaft wiring and single-phase power supply.

Low noise levels

Innovative electric drive (VVVF controlled) guarantees remarkably low noise levels in and out of the cabin.

Maison100 H & E are provided with a fully enclosed cabin. A panoramic version is also available with up to two glass walls. The ceiling is detachable, facilitating the maintenance procedure. Available in stainless steel, skinplate or paint finishing and with LED strip lighting, it creates an outstanding ambience inside the cabin.

Recommended uses

Private residences
Low traffic buildings

Description & features

Maison200 H is a hydraulic solution that offers an efficient use of space and can be easily adapted to any architectural need and design, even for special and challenging projects. Elegant and convenient allows the perfect fitting in any building, existing or new. Maison200 H guarantees outstanding ride quality and a wide selection of design options and finishes to meet your aesthetic needs.

Efficient use of space

Maison200 H maximizes the efficient use of space. Even though the dimensions of the shaft remain the same, Maison200 H can accommodate a larger car, maximizing the usable space.

Premium ride quality

Maison200 H features premium construction quality, low noise levels and minimal vibrations. This ensures a smooth and comfortable ride for passengers, enhancing the overall experience.

Customizable design options

Maison200 H offers a wide range of cabin types and interior materials. Whether you prefer a sleek and modern look or a more traditional aesthetic, Maison200 H can be tailored to suit your desired ambiance.

Aluminum shaft option

In situations where a concrete shaft is not available or feasible, the Maison200 H offers an aluminum construction option.

Maison200 H offers four different cabin types and a wide range of interior materials, providing you with options to match your preferred style and needs Whether you prefer a sleek and modern look or a more traditional aesthetic, you have the freedom to create a unique design by combining colors, materials and lighting.
